SKILLS

Frontend Development

- JavaScript
- React & Redux
- HTML5 & CSS3
- Tailwind & Bootstrap
- Material-UI (MUI)
- Responsive Design

Backend & Databases

- Node.js & Express.js
- RESTful API Design
- MongoDB & MySQL

Tools & Methodologies

- Git & GitHub
- Postman (API Testing)
- Netlify & Render
- OOPs Concepts

LANGUAGES

- English
- Hindi

PROFILE

Results-driven Full Stack Developer with 1+ years hands-on experience in designing, developing, and deploying scalable web applications using JavaScript, React.js, Node.js, Express.js, MySQL, and MongoDB. Experienced in REST API development, database design, and automation testing using tools like Postman. Strong foundation in Object-Oriented Programming, clean code practices, and collaboration in Agile environments. Passionate about building user-centric, performance-optimized, and maintainable software solutions.

WORK EXPERIENCE

E-Geonex Technologies, East Delhi JUN 2025 - PRESENT

MERN STACK DEVELOPER

- Built end-to-end features including user interfaces, backend APIs, and database integrations.
- Architected scalable RESTful APIs and modular backend schemas using Node.js and Express.js, reducing server response latency and improving data validation safety.
- Tech Stack: JavaScript, React.js, Node.js, Express.js, MongoDB

MapmyIndia , New Delhi NOV 2024 - APR 2025

GIS Trainee

- Processed and integrated geospatial datasets into MapmyIndia's mapping platform.
- Performed spatial data analysis, digitizing, and map feature extraction.
- Validated and quality-checked geographic data to ensure high accuracy.
- Assisted in geocoding and attribute mapping for location-based applications.
- Collaborated with technical teams to optimize spatial database query performance.
- Tech Stack: GIS, Spatial Data, Geocoding, SQL, JavaScript

Numeric Infosystem, Gwalior NOV 2023 - MAY 2024

Software Engineer Intern

- Developed and maintained frontend components and backend REST APIs for a delivery-based web application.
- Worked on database schema design and optimized MySQL queries for performance.
- Integrated frontend with backend services ensuring seamless data flow.
- **Tech Stack:** React.js, Node.js, Express.js, MySQL, JavaScript

EDUCATION

B.Tech in Computer Science 2020 - 2024
Rajiv Gandhi Proudyogiki Vishwavidyalaya, Bhopal
CGPA: 8.02

Higher Secondary (12th) 2019 - 2020
Sahyogi Higher Secondary School, Gwalior
Percentage: 90.6%

PROJECTS

MERN STORE – E-Commerce Web Application

https://mern-store-jwt.netlify.app/

Integrated **Razorpay Payment Gateway** with secure webhook verification, utilized **Context API** for global state management and engineered optimized **MongoDB Aggregation pipelines** to handle seamless product listing.
To Access Admin Dashboard URL- **https://mern-store-jwt.netlify.app/admin**
Dashboard Credentials for Admin Login: Email: admin528@example.com , Password: securePassword123
Tech: React.js, Redux, Node.js, Express.js, MongoDB

Electronic Bazaar – E-Commerce Web Application

https://electronic-bazzar-frontend.netlify.app/home

A full-featured e-commerce web application for purchasing electronic products. Features modular product listings, cross-component state management, and an optimized MySQL database layer. and also with **Razorpay Payment Gateway integration**.
Dashboard Credentials for Admin Login: Email: ap@gmail.com , Password: 12345
Tech: React.js, Redux, Node.js, Express.js, MySQL, Material-UI

Restro Buddy – Restaurant POS Solution

https://restro-buddy-frontend.netlify.app/adminlogin

Point-of-Sale solution engineered to optimize front-office and back-office restaurant operations. Built with reusable UI building blocks and customized for maximum UI performance.
Credentials for Admin Login: Email: param@gmail.com, Password: 6156
Credentials for SuperAdmin Login: Email: ss@gmail.com, Password: 12345
Tech: React.js, Redux, Node.js, Express.js, MySQL, Material-UI

Product Details Using MongoDB

https://productdetails-using-mongodb.onrender.com/admin/adminlogin

CRUD Management of Products With MongoDB Database. This project demonstrates a full-stack implementation of product management, including creating, reading, updating, and deleting product details using a MongoDB database.
Credentials for Admin Login: Email: ap56@gmail.com , Password: 3535
Tech: HTML, CSS, EJS, JavaScript, Node.js, Express.js, MongoDB

PDMS-U – Property Details Management System

https://ptms-u.netlify.app/

Designed and developed a centralized system to automate property details workflows. Implemented secure CRUD operations, validation logic, and a modular backend architecture.
Credentials for Admin Login: Email: ap@gmail.com, Password: aman@1234
Tech: HTML, CSS, EJS, JavaScript, Node.js, Express.js, MongoDB
